

## Health and Safety Statement (Website)

---

St Peters Presbyterian Church believes that an effective health and safety management system is the key to a successful organisation; ethically, morally, spiritually, legally, and financially. Through our active commitment to legislative compliance and most importantly, ensuring our workers and Church are safe, we will continuously look for opportunities to improve our performance and system whilst still following our Church values.

We aim to actively promote improvement by ensuring our staff, volunteers and leadership are equally committed, involved, and supportive of our health and safety practices.

To achieve this we will ensure all workers and visitors are:

- Working together; taking reasonably practicable steps to ensure that any significant risks or hazards to workers are minimised, and workers are protected, where elimination is impracticable
- Involved in identifying and controlling new and existing hazards and regularly monitoring these hazards within our facilities
- Informed about accident and emergency procedures
- Aware of their responsibilities to themselves, their fellow workers and the general public
- Utilising the systems in place to record all incidents, near misses or injury
- Promoting the provision of advice, information, education and training in relation to work health and safety
